

Ettington Church of England
Primary School

Thursday 22nd May

Dear Children, parents and carers,

The week beginning 16th June is STEM week. To celebrate this, we are inviting children to make and show something in our 'Science fair' after school, on Thursday 19th June.

It can be anything from shadow puppets, how the heart works to animal facts.

Be as creative as you like! But please make sure it is safe for everyone. If it is food related, please make sure there are no nuts involved.

We are asking for a £1 entry so any money raised can go towards new science equipment that will benefit the whole school.

We hope you will join us in celebrating science!

Thank you,

Elina, Hannah, Tilly and Mrs Smith
